Extracted Text:

Trump eases car tariffs after firms raised concerns

Verdict:

Real

Confidence:

97%

Explanation:

Step 1: Identify the main claim

The main claim in this statement is that President Trump "eased car tariffs after firms raised concerns."

Step 2: Analyze the claim

Let's break down the claim into smaller verifiable parts:

1. Did President Trump impose car tariffs?
2. Did firms raise concerns about the car tariffs?
3. Did President Trump respond to these concerns by easing the car tariffs?

Step 3: Verify each part of the claim

1. President Trump did impose car tariffs on imported vehicles from several countries, including China, in 2018.
2. Several automakers, including General Motors, Ford, and Fiat Chrysler Automobiles, expressed concerns about the impact of the tariffs on their sales and production.
3. In response to these concerns, President Trump announced a temporary exemption for some imported vehicles in 2019.

Step 4: Conclusion

Based on the analysis, the statement is True. President Trump did impose car tariffs, firms raised concerns, and he later eased them.
